

2012 Summer Program Tenative Schedule

JULY 2 - JULY 6

Star and Stripes

JULY 3RD WEAR RED WHITE AND BLUE

All classes: Learn the importance and the meaning behind the 4th of July . The entire school will participate in a parade celebrating America's independence at 10:00 am in front of the school on July 3rd.

JULY 9 - JULY 13

Stories to be Told.....

Reading and Language Arts Week

Children will review the five strands of language arts by expanding their imagination while exploring different stories. Mark, a vaudeville comedian will introduce the epic battle between TV and reading. He teaches the children that reading is a fun, exciting way to gain new skills, see new places, meet new people, and experience more

JULY 16 - JULY 20

Historical Extravaganza

History Week

Inventions have shaped our world, and we benefit from them daily. Where did they come from? Who invented them? What's next? In this fun, funny and thought-provoking program, Mr. Dennis looks at steam engines, silly putty, light bulbs, peanut butter, and other major inventions that have affected our modern civilization. Inventors like Franklin, Carver, Edison and even an eleven year old inventor are discussed with demonstrations of their inventions.

JULY 23- JULY 27

Numbers are Fun

Mathematics Week

You can't have fun without Math! With story telling, magical props, audience participation and plenty of volunteers, Mr. Dennis Regling teaches problem solving skills, test taking tips and much more. Students will also learn about many great mathematicians of the past, including Pythagoras, Gallileo, Isaac Newton and Florence Nightingale. Mr. Dennis makes math relevant and interesting for your students in this fast-moving romp through the land of numbers, shapes and oddities.

JULY 30 - AUGUST 3
Science Week

Science Exploration

The Weird Science Show is an interactive program keeps the students engaged and laughing while introducing and building upon scientific concepts that compliment and reinforce their classroom studies. Students will not only learn about electrons, air flow, air pressure and the areas of scientific studies , but how they can explore the science around them every day.

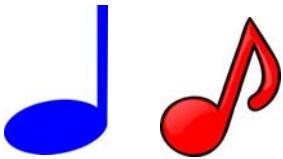

AUGUST 6 - AUGUST 10
Art and Music Week

Artistic Melodies

Primary/Pre-K: Children will be able to learn songs through memory allowing children to identify the basic elements of music and focus on the ability to count collectively. They will also identify different musical instruments. Children will explore different forms of art.

Elementary: The children will examine how **art and music** can be powerful tools for conveying a political or social message.

AUGUST 13 - AUGUST 17
Geography Week

Around the World

Children will study the lands, features, inhabitants, and phenomena of Earth. They will understand the world is made up of regions that are very different from each other in terms of climate, geography, animal life, and culture. The children will get to see animals from all around the world up close and personal when Reptile Wonders come to visit our school.

AUGUST 20 - AUGUST 23

SUMMER SOIREE

(EVERYDAY IS A SPECIAL DAY...SEE CALENDAR)

All classes: Students will engage in numerous fun-filled activities such as moon bounce, obstacle courses and games. Children will also have the opportunity to participate in our week of SCHOOL SPIRIT!

JULY 2 - AUGUST 23 SOCCER CAMP

We are currently working out details to provide Professional lessons on strategies, skills, dribbling and controlling a soccer ball. All students ages 3- 12 will have the option to sign up and participate for an additional fee.

THE FOLLOWING SPECIALTY PROGRAMS WILL CONTINUE IN THE SUMMER

COMPUTERS

MUSIC

YOGA

SPANISH
